

To Our New Chicago Customers,

As you know, SkipperBud's and Westrec Marina Management have entered into an agreement whereby SkipperBud's will provide marine services to those boat owners storing their watercraft in the Montrose Yards and the 31st St. Harbor Building, operated by Westrec.

SkipperBud's is prepared to handle all of your requests, whether it is a new windex on your sailboat or a bow thruster on your powerboat. However this letter and its attachment are meant to explain and facilitate what is generally referred to as "Winterization and Commissioning"

Indoor Storage - The 31st St. Facility is well heated and temperatures should never drop to freezing... thus your need for winterization against freezing is nominal. However, we do recommend what we call "Prep. For Heated" This process is described in the attachment. When you elect to have your boat prepared for storage in this fashion, your boat will also be summerized in the spring at launch.

Outdoor Storage - A full range of winterization services are offered, from a basic drain down/anti-freeze flush to our Platinum Package which includes such things as gear lube changes, impeller changes and summerization.

Contact Us - Your best way to contact us is by email...chicagoservice@skipperbuds.com several of our leading customer service representatives monitor this mail box on a 7 day per week basis during the season. Of course, we're available by phone as well at 847-872-3200; ask for Thomas Tobin or Jim Wardlow.

Our Service fax number is (847) 872-3315

Other Services - In addition to all of the electrical, electronic and mechanical services, we are prepared to handle all of your cleaning, bottom painting, shrink wrapping and other support operations.

Forms - Please complete the form on the back and return them by scanning them to chicagoservice@skipperbuds.com, faxing to 847-872-3315 or mailing to:

Jim Wardlow
